

Alhasan Abdulrazzaq

IT SERVICE DESK SPECIALIST

Profile

IT professional with hands on experience delivering technical support across Windows, Linux, and macOS environments. Skilled in diagnosing hardware, software, and network issues while maintaining high customer satisfaction. Background spans help desk support, healthcare systems, and secure data environments. Currently completing a B.S. in IT Project Management with coursework in cloud computing, networking, and systems analysis. Bilingual in English and Arabic.

WORK EXPERIENCE

Patient Access Representative, Endeavor Health, Skokie

FEBRUARY 2024 – PRESENT

- Manage patient registration and insurance verification across multiple EHR systems with high accuracy in a fast-paced ED environment
- Handle multi-line phone systems, triage urgent cases, and coordinate patient flow with clinical teams
- Enter, update, and validate sensitive patient data while maintaining strict HIPAA compliance
- Process copays, deductibles, and outstanding balances with consistent accuracy in payment handling

Information Technology Specialist, Smoke Station, Urbana

APRIL 2021 – DECEMBER 2022

- Provided end-to-end IT support for POS systems (Clover), Windows workstations, and LAN/WAN connectivity
- Diagnosed and resolved hardware and software incidents, minimizing downtime for business-critical operations
- Configured network settings, file sharing, and user permissions across multi-user environments
- Implemented access control policies and data protection measures to strengthen security posture
- Monitored system performance proactively; trained staff on software and basic troubleshooting to reduce recurring tickets
